

SURREY LACROSSE ASSOCIATION

April 6, 2020

Hello Surrey Lacrosse Community

All of us involved with the SLA Executive are hoping you and your families are keeping safe and healthy throughout this health crisis. We wanted to reach out with respect to the potential season and give some insight as to where we are currently at.

We wish we had firm answers for when, if, how, the season may look for lacrosse this year but like many, we do not make final decisions on whether we play or not. We do know that the CLA (Canadian Lacrosse Association), the BCLA, and many sport associations are relying upon health officials to make that call. Currently, the most recent decision has been to suspend activity until the end of April. After any further decision is made to play the season, it will then depend on our local resources whether we will have access to arenas and floor time in order to make the season worthwhile. See links below for these websites.

There has been some discussion surrounding having several tournaments throughout June, July, and August to ensure our youth get many games in this season but as yet, it is all just thoughts.

As far as refund requests for this season, we will have to determine that when the season is officially considered cancelled. The SLA Executive has had some discussions and have considered options surrounding refunds. There have also been discussions at the regional level to compare what other clubs have planned in case there is a cancelled season. At this point SLA has not concluded what the refund process will look like. Long story short, we will post out when it is known the direction the SLA will take on refunds when it is a decision that must be made due to a cancelled season. We hope you understand.

If you do have any questions or concerns, please do not hesitate to email me.

Many thanks and again, please stay safe!

Sean Reid
